CORN IS KING OF AMERICAN CROPS; LEADS IN VALUE

Would Pay Off Interest Bear-
ing Debt and Buy Precious
Metals.

All Other Cereals Together
Not Its Equal.

SOUTH IS PRODUCING MORE.

Washington, Dec. 8.—Nothing short of omniscience can grasp the value of the farm products of this year, is the statement of the secretary of agriculture in his annual report for 1910; published today. At no time in the world's history has a country produced farm products within one year with a value reaching \$8,926,000,000, which is the value of the agricultural products of this country for 1910. The value of farm products from 1899 to the present year has been progressive without interruption. If the value of the products of 1899 is placed at 100, the value for this year is 189, or almost double the value for the census year 11 years ago.

"During this period of unexampled agricultural production, a period of 12 years, during which the farmers of this country have steadily advanced in prosperity and wealth and in economic independence, in intelligence, and a knowledge of agriculture, the total value of farm products is \$79,000,000,000."

Corn National Asset.
The corn crop of 3,121,581,000 bushels exceeds that of the record year 1906 and is greater than the average crop of the preceding five years by 14 per cent. While the value of this corn crop is below that of 1909 and also of 1908, its amount belongs to stories of magic. It can hardly be reckoned as less than \$1,500,000,000, a sum sufficient to cancel the interest-bearing debt of the United States, but all of the gold and silver mined in all of the countries of the earth in 1909, and still leave to the farmers a little pocket money.

All of the cereals except corn are together worth three-fourths as much as that crop. The great allied iron and steel industries had, in the latest census year for which results have been published, 1904, a production worth only 60 per cent of this year's corn crop.

The growing importance of the south in corn production is becoming conspicuous. In 1899 it produced hardly more than one-fifth of the national crop, now it produces one-third.

The cotton crop of this year may be worth in lint and seed a round \$900,000,000 at the farm, or more than the corn crop was worth in any year prior to 1901. This value is 13 per cent above the five-year average.

The value of the hay crop is about \$720,000,000, an amount which has been exceeded but once, and that in 1907; it is 13 per cent above the average of the preceding five years.

The production of spring and winter wheat is 691,767,000 bushels, or substantially the average of the preceding five years, whereas the value is about \$625,000,000, or 7.6 per cent above the five-year average.

Easily the fifth crop in point of value is oats, the value of which this year is \$380,000,000 or 12 per cent above the average of the five preceding years. In quantity the oats crop this year is magnificent. For the second time in the history of this country the crop exceeded 1,000,000,000 bushels, the precise estimate standing at 1,096,396,000 bushels, or 22 per cent greater than the average of the five preceding years.

Next in order of value is the potato crop, which has been exceeded only in two or three former years. With the exception of the crop of 1909, which was in a degree an over-production, the crop of this year is the largest ever grown in this country; the preliminary estimate of the department is 328,787,000 bushels, or 8 per cent, above the average of the preceding five years.

Beet sugar production in 1910 will about equal that of 1909, say 512,000 short tons. Its factory value is reckoned at \$57,000,000, and the factory value of cane sugar at about \$28,000,000, an amount which has been exceeded in four years.

If prospects are realized, the entire sugar crop of factory production, beet and cane combined, will be 1,000,000 short tons, or a production that has been exceeded in only one year, 1909. In factory value the two sugar crops will equal about \$79,000,000, and if to this be added the value of molasses, syrup, beet pulp, and sorghum and maple products, the combined value is about \$97,000,000.

The tobacco crop has slightly ex-

Governor Harmon Is Interesting Figure Before Rivers and Harbors Congress at the National Capital

Regular Annual Appropriation
is Demanded For Water-
ways—Committee of Con-
servation Congress.

Washington, Dec. 8.—Gov. Harmon, of Ohio, and General W. H. Bixby, chief of United States engineers, were principal attractions at today's session of the rivers and harbors congress. Both praised it and pledged their support to the projects. Champ Clark declared his sympathy with the work.

Other speakers were: Frederick A. Delano, president of the Wabash railroad; Col. W. L. Seibert, of the Panama canal commission, and Walter S. Dickey, president of the Missouri River Navigation Committee.

Want Annual Appropriation.
J. A. Patton, of Chattanooga, Tenn., was a speaker.

The annual expenditure of at least \$50,000,000 from the public treasury upon meritorious rivers and harbors of the United States until every one of them is adequately and amply improved and ready for industrial and commercial needs and uses were the policy advocated by John A. Patton, president of the Tennessee River Improvement association.

Conservation Compromise.
Washington, Dec. 8.—The executive committee of the National Conservation association, which is meeting here today, is considering a plan to effect an agreement between the opposing advocates of federal and state control of water power sites. The basis of the plan is to develop flowing water without delay or waste. The committee contends that private capital must be added through corporate franchises, private property condemned and licenses granted for the use of public lands and power sites.

Shivell—Tegthoff.
Bardwell, Ky., Dec. 8.—The wedding ceremony of Francis Shivell of Wickliffe, Ky., and Miss Gertrude Tegthoff will be performed at the home of the bride-elect on December 18.

Cold People Steal Overcoats.
While W. G. Fowler was attending school last evening at the Central Business college, Sixth street and Broadway, some sneak thief slipped into the hallway on the second floor and took his black overcoat from the rack. The coat was taken between 7 and 9 o'clock and Mr. Fowler asked the police to try and locate it for him. This adds another to the many clothing thefts about the city since cold weather has come.

AERO CLUB LOSES POWER.
Western Delegates Win in Fight for Chairman.

New York, Dec. 8.—Dominance of the national council of the Aero club of America, heretofore held by the Aero Club of America, with headquarters here, will be apportioned throughout the United States. This was decided here today. Heretofore the selection of the council's chairman has been left to the Aero Club of America, but the western delegates at a long session and the matter was fought out. Peace was reached only when the board of directors of the Aero club yielded and instructed its delegates to vote with the other delegates to empower the council to elect its own chairman.

Robert J. Collier of the Aero Club of America was then elected chairman in place of Clifford B. Harmon, who was appointed to the place when the council, which has 30 members, was organized last July.

Coalition Ministry Has Large Majority

Washington, Dec. 8.—The Republican and Democratic campaign committees today filed statements of their expenditures during the recent congressional campaign. The Republicans spent \$74,373.35 and the Democrats \$27,771.22.

BLACKMAILING OF DEENE PLOW HEAD

FEDERAL GRAND JURY AT MO-
LINE, ILL., INDICTS A
MAN.

Peoria, Ill., Dec. 8.—Dr. J. C. Lamping, of Moline, was indicted today by the federal grand jury on charges of using the mails in an attempt to blackmail William Butterworth, president of The Deere Plow Manufacturing company. He was released on \$2,000 bond.

Jefferson Parker.
Fulton, Ky., Dec. 8.—Jefferson Parker, aged 70 years, one of the oldest and most popular citizens of this community, died suddenly yesterday of congestion of the brain. He was a devout member of the Presbyterian church. The deceased is survived by four children, Ed and Delphus and Misses Lizzie and Virgie Parker. Burial occurs this afternoon in the Good Springs churchyard.

Lillie Didn't Show Up.
Lillie Gray, colored, who was fined \$50 yesterday afternoon for furnishing liquor to a minor, disappeared this morning when she was released from the lockup, and the whole police department is searching for her. Lillie happens to be an excellent cook and Jailer Clark deemed it expedient to use her in the cook house on Fourth street near the city hall. She promised to go to the house, but never put in her appearance.

Farmers' Union Rally

Saturday at Pottsville, in Graves county, a rally and speaking will be held by the Farmers' union. Saturday, December 17, a county rally of the Calloway county members will be held at Bethel. R. L. Barnett, state secretary-treasurer, will deliver addresses at both rallies. The Rev. John Grady will speak at Bethel also.

DR. AND MRS. BROOKS ARE CALLED AWAY BY ILLNESS.

Dr. and Mrs. John G. Brooks left at 6 o'clock last night for Denver, Col., to attend the bedside of Mrs. Mary King, mother of Mrs. Brooks. A telegram announcing her serious illness, was received at 4 o'clock yesterday afternoon. Mrs. King formerly lived in Paducah and her many friends will regret to hear of her illness.

MRS. EDDY'S BODY LAID IN VAULT AT MT. AUBURN TODAY

To Await Completion of Mag-
nificent Mausoleum From
Her Resting Place.

First Church Reader Conducts
Service.

HER HEIRS RECEIVE NOTHING.

Boston, Mass., Dec. 8.—The body of Mary Baker G. Eddy, founder of Christian Science, was placed in a vault in Mount Auburn cemetery today, after simple services from her late residence in Newton. The body will remain there until a mausoleum, befitting her life's work, is erected on the shores of Hallow Lake at the edge of the cemetery. The services were attended by about 120 relatives, members of the household and church officials.

Mrs. Eddy's Heirs Are Settled With.
Boston, Dec. 8.—That Mrs. Mary Baker Glover Eddy, head of the Christian Science church, left none of her estate, estimated at two million dollars, to relatives, is gathered from a remark made by Judge Clifford P. Smith, first reader of the mother church, who said: "Mrs. Eddy's will is not to be read tomorrow, as it contains absolutely nothing which would be of interest to any member of her family."

Three years ago, at the time of the suit by her "next friends," Mrs. Eddy set aside a trust fund of \$125,000 for the benefit of her children and those of her son, George W. Glover, of Lead, S. D., while later, in 1909, she made a complete settlement with her heirs, with the understanding, it was generally believed, that there would be no contest of her will. At this time the trust fund was increased to \$175,000 and a settlement made on other heirs approximating \$225,000. Since the death of Mrs. Eddy her son has said he would not contest the will. Smith said the coffin will not be opened during the service, it being preferred to remember Mrs. Eddy as in life.

PADUCAH EAGLES ELECT OFFICERS FOR YEAR

The annual election of officers was held last night by the Paducah Aerie No. 1177, of Eagles. The new officers to be installed at the next meeting of the lodge. The elected officers are: R. J. Wathen, president; Harry Lloyd, vice president; Emile Choate, chaplain; George Ingram, secretary; B. Wellie, treasurer; Beverly Reed, conductor; Henry Douglas, inside guard; V. A. Tagon, Dan Galvin and Frank Elliott, trustees.

Porteous Tomorrow

The funeral of the late John Porteous has been postponed until tomorrow afternoon.

The funeral will be in charge of the Elks and Red Men, who will meet at their respective halls and attend in a body. The pallbearers will be Messrs. John P. Adkins, Thomas Koenig, M. F. Griffin and George F. Welkel, of the Elks, and City Judge D. A. Cross and Clarence Householder, of the Red Men. The Rev. H. W. Barwell will officiate in the services.

KNITTING MILLS WILL BE OPERATED

MR. R. B. PHILLIPS RECEIVES MANY INQUIRIES ABOUT PLANT.

In all probability the knitting mills at Eighth and Jones streets will be in operation in a very short time. Mr. R. B. Phillips has several letters from some of the biggest mill men in the country, asking for information about the plant, and one or two seek options. Mr. Phillips says there is no doubt that the mill will be in strong, financial hands. The plant has been shut down now for about three months. At full capacity it employs over 200 persons, and resumption of operations would give employment to a character of labor that needs it just at present.

Sulzer Proposes That Cattle And Meat be Put on Free List, Because of Policy of American Beef Trust

Makes First Attack on Sched-
ules of Payne Law—Senate
Adjourns Until Monday—
Committee Work.

Washington, Dec. 8.—The senate adjourned at 1:30 p. m. until Monday.

The first bill taken up was a claim of the state of Pennsylvania for interest advanced for pay of the state troops in the Civil war. The matter went over.

Several pensions and several minor bills were introduced.

In the Senate.
Debate on Cummins' resolution to create joint rule of house and senate, providing that amendments to the Payne-Aldrich tariff act may not be amended so as to open up whole tariff bill. Proposed rule would open way for schedule by schedule revision. Hale on behalf of standpatters made strong objection to the resolution.

Committees.
The first effort made in the present session of the house to have a change made in the tariff law was by the introduction today by Representative Sulzer, of New York, of a bill "to repeal the duty on meats and cattle." All meats and all cattle imported for use as foods are to be placed on the free list by the bill.

"In view of the fact that the meat trust is selling meat cheaper by from 8 to 15 cents a pound in London than in the United States," said Mr. Sulzer, "it seems that all meats should be on the free list."

Invoking the rules of the senate, Senator Hale forced a delay of at least twenty-four hours in the introduction of Senator Cummins' resolution providing that when an amendment to any schedule of the Payne-Aldrich tariff bill is under consideration, no amendment relating to any other schedule of the law shall be in order.

Carrying a total of \$8,160,985, the Indian appropriation bill, the first of the big supply measures finished at this session of congress, was reported to the house by Chairman Burke, of the committee on Indian affairs. The amount exceeds the formal estimates of the interior department by \$14,723, but is \$561,663 less than the total appropriations for the Indian service for the current fiscal year.

Recommend Mexican Treaty.
The senate committee on foreign relations voted to recommend to the senate the approval of the treaty between the United States and Mexico, by which the dispute over the Chamizal zone, at El Paso, Tex., will be submitted to arbitration.

Hayett-Thompson.
Fulton, Ky., Dec. 8.—William Hayett and Miss Ora Thompson, well-known young people of Mayfield, Ky., eloped to this city yesterday morning and were united in marriage at the office of Esquire J. T. Futrell.

The newly-weds returned home on the 10 o'clock train to seek parental forgiveness and receive the congratulations of their many friends.

ALLEGED SLAYERS OF AXION COOPER

ARE ON TRIAL AT EDDYVILLE AND WITNESS TELLS STORY.

Eddyville, Ky., Dec. 8.—(Special.)—Noah Oliver, son of Milton Oliver, chief witness in the prosecution of the cases of Bart Creekmur, Bryan Hawkins, Jim Bogarth, and Alonzo Gray, charged with being accessories to the murder of Axion Cooper. The other cases are postponed until these are finished. Oliver said Gray and Hawkins knocked Cooper down and Frank Murphy shot him, while he was prostrate. He said Bart Creekmur was forced to one side of Cooper, and did not hit him. Robert Morrick said Cooper said before he died that Roy Merrick and Vilas Mitchell had shot him. The defendants are alleged to be night riders. Cooper was killed at a fiesta at Lamasco.

Basketball Meeting

Basketball enthusiasts will meet next Monday night at the office of Smith & Davis, 403 Broadway for the purpose of formulating the plans for the reorganization of the city basketball league.

HOUSEBOY ROBS RESIDENCE AND CONFESSES CRIME

Neighbor Saw Clarence White
Enter Home of Dr.
Brooks.

Bloodhounds are Then Called
Off Trail.

BOY IS CAUGHT ON BROADWAY.

"Lady Carter," one of the police bloodhounds, was robbed of a chance to demonstrate her ability shortly before noon today when a next door neighbor of Dr. J. G. Brooks, 1627 Jefferson street, told City Jailer James Clark that Clarence White, Dr. Brooks' houseboy, was the one who broke open a rear window just after daylight today and entered the house.

White was traced to his home and by chance he was found at Fifth street and Broadway. He made a full confession to Chief of Police Singery and Judge Cross issued a warrant charging him with house-breaking. He will be given a preliminary hearing at 8:30 a. m. tomorrow.

Dr. and Mrs. Brooks left last evening for Denver, and when Mrs. David Koger, their daughter, went to the house at 10 o'clock this morning she found the house had been broken into and there were footprints in the snow below the window, which had been smashed. Mr. David Koger told the police and Jailer Clark and Deputy Tom King went to the residence with "Lady Carter." Just as they were about to put the dog on the scent Mrs. J. J. Berry, of 1625 Jefferson street, told them that she saw the houseboy enter early in the morning. The officers gave up the job and went to White's home, 1307 Monroe street. He had left several minutes ahead but was taken by surprise on Broadway later. He is past 17 years of age.

White confessed to Mr. Koger that he stole Mrs. Koger's \$175 diamond ring a few weeks ago, and she gave him 50 cents for "finding" it.

CAPT. J. J. YOUNG

VETERAN OHIO RIVER PILOT DIES HERE TODAY.

Piloted Illinois Central Transfer Boat Between Paducah and Brookport.

Captain John J. Young, 67 years old, a veteran pilot well known by the rivermen on the Ohio and Mississippi rivers, died this morning at 3:35 o'clock at his residence, 1204 Bernheim avenue, from a complication of diseases. Although his health has been failing several years, Captain Young led an active life until about seven months ago, when he retired.

Captain Young was born in Hardin county, and practically all of his life was spent on steamboats on the Ohio and Mississippi rivers. For many years he resided at Hickman, but about nine years ago removed to Paducah. For many years he was on the transfer steamer of the Illinois Central railroad between Paducah and Brookport. Captain Young was a man well respected by the river fraternity, and had a large number of friends. He is survived by his wife and one daughter, Miss Rozella Young, of Paducah; and one son, Mr. J. A. Young, of West Virginia. Captain Young was a faithful member of the Fountain Avenue Methodist church, and also a member of the Knights of Honor.

The body will be taken to his former home at Hickman tomorrow for the funeral and burial.

The funeral will be held tonight at 9 o'clock at the residence. The Rev. Paul B. Jefferson, pastor of the Fountain Avenue Methodist church, will conduct the services.

PROMINENT OLD MEN OF MAYFIELD ARE DEAD

Mayfield, Ky., Dec. 8. (Special.)—W. S. Melloy, 88 years old, a prominent coal dealer, and Louis A. Cash, 80 years old, a farmer, and one of the wealthiest men in the county, died here today. Mr. Cash owned hundreds of acres of land and was rated at a quarter of a million.

THE POPULATION.
Washington, Dec. 8.—The estimated total population of the United States is 92,153,221, an increase of 16,831,834 or 22.3 per cent, as announced by the census bureau today. Eight states are not yet reported.

TRACTION ACCIDENT HURTS 19 PASSENGERS

Springfield, Ill., Dec. 8.—Nineteen persons were injured today in a rear end collision between a passenger and a freight car on the Illinois Traction system, two miles east of here. The failure of brakes on the passenger coach caused the wreck. H. A. McKeene, secretary of the Illinois Farmers' Institute, escaped injury. William Hestl, of Belleville, is among the injured.

Warning Lights for Loop.
As a prevention of accidents Fire Chief James Wood is installing lantern lights at the corner of Third street and Kentucky avenue and Fourth street and Broadway. Whenever a fire alarm is received at the Central station the red lights will be flashed on automatically, and street cars and vehicles in the loop will proceed with caution.

SUITS WILL BE FILED AGAINST COAL COMPANY

Attorney David Browning returned last night from Providence, where he has been employed by administrators of several of the victims of the explosion in the coal mine of the Providence Coal company to bring suit against the company for damages. Mr. Browning came to Paducah from Webster county, where he had a large practice. He spent several days in Dixon, where his brother has been appointed county judge.

SEVENTY CENT SCALE OFFERED BOILERMAKERS

New Orleans, La., Dec. 8.—That the United States government is alarmed over the boiler-makers' strike in the Panama canal zone is indicated by the arrival here today of agents from the isthmus, who are offering high wages to Americans to fill vacancies. Boiler-makers are offered 70 cents an hour and free passage, their wages to begin the day the ship transporting them sails from this port. It is expected that the strike will spread to other crafts.

DOGS EAR FOR MUSIC DISTURBED BY SOUNDS

Musicians were almost thrown into a panic at noon today when a white and black spotted bull dog attacked the cowboy band of the Lewis Stock company, at Fourth street and Broadway. It was beaten off after it had grabbed the crimson shirt of a trombone player. The dog heard the band as it left Fifth street and Broadway and raced from Third street toward it. It first attacked a trombonist, who frightened it by blowing the instrument in its face. The dog recovered sufficiently to grab a second trombonist by the right arm, scattering his music.

MAJORITY UPHOLD MR. BALLINGER

IN REPORT PRESENTED TO CONGRESS YESTERDAY.

No Grounds for Opinion That He is Not a Faithful Public Servant.

SAYS GLAVIS WAS REMISS

Washington, Dec. 8.—Vindicating Secretary of the Interior Ballinger upon all the charges brought against him, and condemning his accusers as having been inspired by a deep feeling of animosity built upon a supposed difference in policy respecting conservation, a majority of the congressional committee which investigated the so-called Ballinger-Pinchot case submitted its report to congress.

The reports were accepted in both houses without comment. The plan of action to be followed by the Democrats has not been determined on, but it is said a resolution will be presented to carry the recommendation made for the secretary's removal.

An effort will undoubtedly be made to put the house on record as to its opinion of the majority report. Some of the Democratic members of the house favor demanding consideration of the report at the first opportunity.

Officials of the interior department declined to make any comment on the majority report.

"I have no comment to make on the report of the committee," said Secretary Ballinger.

In case the speaker permits the matter to take its course, it is held by parliamentarians that a resolution demanding a vote will be necessary. Such a resolution would have to go to some standing committee for report. As no such committee would relish the responsibility the resolution would probably be pigeonholed.

The general feeling is that there will be no action on the report at this session, which means not at all for the report loses force with the expiration of the present congress in March.

The report makes the following specific findings:

"That the charges and insinuations against Secretary Ballinger in relation to the Cunningham coal land entries or other coal land claims in Alaska are not justified and his conduct in respect thereto is not justly censurable.

"That he was fully justified in revoking the India co-operative agreement.

"That the restoration of water power sites by Secretary Ballinger were made in good faith and not in enmity to the government . . . and that no inquiry appears to have been done to the government and the cause of conservation by either the restorations or withdrawals.

"That, in view of the opinion of the attorney general he was justified in abandoning the use of the so-called water users co-operative certificates in connection with the reclamation of arid lands.

"That the administration of the reclamation law presented features justly subject to criticism. . . . No unfair criticism or improper conduct on Secretary Ballinger's part has been shown nor any action by him not within the sound discretion of the head of the interior department in the faithful performance of his duty.

"That he is not an enemy of, nor hostile to a reasonable and judicious policy of conservation, and that no ground whatever has been shown justifying the opinion that he is not a faithful and efficient public officer."

Alaska Coal Lands.
After setting forth the fact that the entire known coal fields of Alaska covering more than eight million acres, is still in government ownership, the report takes up the bearing upon the strike between Secretary Ballinger and other officials of the government, including several of his subordinates, Mr. Pinchot who was deposed as government forester. The report then says:

"Your committee finds that the interests of the people and owners of

Famous "Pint of Cough Syrup" Receipt

No Better Remedy at Any Price. Fully Guaranteed.

Make a plain syrup by mixing one pint of granulated sugar and 1/2 pint of warm water and stir for two minutes. Put 2 1/2 ounces of pure Pinex (fifty cents worth) in a pint bottle, and fill it up with the Sugar Syrup. This gives you a family supply of the best cough syrup at a saving of 1/2. It never spoils. Take a teaspoonful every one, two or three hours.

The effectiveness of this simple remedy is surprising. It seems to take hold instantly, and will usually stop the most obstinate cough in 24 hours. It tones up the faded appetite and is just laxative enough to be helpful in a cough, and has a pleasant taste. Also excellent for bronchial trouble, throat tickle, sore lungs and asthma, and an unequalled remedy for whooping cough. This recipe for making cough remedy with Pinex and Sugar Syrup (or strained honey) is a prime favorite in thousands of homes in the United States and Canada. The plan has been imitated, though never successfully. If you try it, use only genuine Pinex, which is the most valuable concentrated compound of Norway white pine extract, and is rich in gualic acid and the natural healing pine elements. Other preparations will not work in this recipe.

A guaranty of absolute satisfaction, or money promptly refunded, goes with this recipe. Your druggist has Pinex or will get it for you. If not, send to The Pinex Co., Ft. Wayne, Ind.

the Alaskan coal fields are not threatened or endangered under existing conditions."

Speaking of the Cunningham claims, the committee finds that it would be improper for them to pass upon the merits of these claims and thus prejudice them while they are pending. "If they are regular," the report says, "patents should be allowed. If they are fraudulent, the claims should be cancelled. The claimants are entitled to an impartial judgment upon their rights in the premises."

It is said the committee found no reason to doubt that the commissioner of the general land office, with an appeal to the secretary of the interior, would decide these cases fairly and impartially but because of the imputations heaped upon them it is recommended that a law be enacted for the transfer of these and any other cases involving claims to Alaskan coal lands to an appropriate court for a hearing and a decision. Concerning the future of Alaskan coal lands the report makes a definite recommendation in favor of the leasing system, which also was favored by President Taft in his message to congress. The recommendation follows:

"Your committee believes it would be the height of unwisdom to permit these great coal fields to be monopolized or gathered into the private ownership of a few for speculative purposes. As they increase in value the increment should inure to the benefit of all the people.

"To bring about this result and at the same time put an end to the unreasonable conditions now existing your committee recommends that the government refuse to sell the lands, but that retaining their ownership, it shall grant leases at fair royalties for periods limited, large enough to cover the necessary investments upon sound business principles and thus secure the opening and operation of sufficient mines to meet the necessities of Alaskan consumption; afford relief from the present outrageous prices paid by consumers, and at the same time afford some revenue to the government. We recommend legislation to that end, and that pending such legislation the existing withdrawal from entry of the Alaska coal lands be made."

Denounces Glavis.

As to the conduct of Mr. Glavis in the long period in which the Alaska coal claim cases were under his control as special agent of the land office the report declares he had sufficient time and abundant assistance to make the field examination which he had demanded.

In this connection the committee says:

"If his demand was in good faith, Glavis was greatly remiss in his duty in not having the examination made then."

Commenting upon the blanket withdrawals of public lands which were made by James R. Garfield when secretary of the interior, the committee says this action was taken by him after he ascertained that he would not be reappointed under President Taft. It is said these withdrawals were made haphazard, from the mere inspection of the land office state maps.

Many of these lands were restored to the public domain by Secretary Ballinger and a portion were again set aside. The re-withdrawals, according to the committee, were made by Secretary Ballinger, after a careful examination of the maps, data and reports in the geographical survey and it is held that the re-withdrawals embraced all the power sites in the original blanket withdrawals made by Mr. Garfield.

A Simple Safeguard for Mothers.
Mrs. D. Gilkeson, 326 Ingles ave., Youngstown, Ohio, gained wisdom by experience. "My little girl had a severe cold and coughed almost continuously. My sister recommended Foley's Honey and Tar. The first dose I gave her relieved the inflammation in her throat and after using one bottle her throat and lungs were entirely free from inflammation. Since then I always keep a bottle of Foley's Honey and Tar in the house. Accept no substitutes. Gilbert's drug store."

Arthur Donaldson.

Upon the excellent authority of Mr. Sorlin himself, the newspapers and unprejudiced observers, D. B. Sorlin has struck a vein of pure gold in "The Wanderer," his latest play in which Arthur Donaldson, the operatic star, is starring. "The Wanderer" tells a story of life in Nebraska and one of the scenes shows a stampede of cattle which is illustrated by a patented device. It is simply enormous and everybody seems to think it bigger than any other two plays that Mr. Sorlin has written. Arthur Donaldson in the title role of "The Wanderer," plays the part in a brilliant fashion. His singing reminds one of the palmy days of the late J. K. Emmett. The play and star are meeting with tremendous success. This attraction comes to the Kentucky Wednesday night.

WITH COMMERCE COMMISSION.

Washington, Dec. 8.—With a view
to reaching a satisfactory determina-
tion of the application of the present
interstate commerce act to the tele-
graph and telephone companies, the
interstate commerce commission to-
day gave a hearing to the officials of
the telegraph and telephone com-
panies, which, by terms of the law,
are made common carriers.

The hearing took three hours and
was largely respecting the operation
of the law. No conclusion was reach-
ed by the commission, Chairman
Knapp announcing at the conclusion
that the committee hearing adjourned

Consumption

Anyone interested in the cure of Con-
sumption should get one of the booklets
telling of recoveries by the use of Eck-
man's Alternative.
Coughs, Stomach Colds and Pneu-
monia may be the beginning of more
serious troubles—Eckman's Alternative is
the effective remedy. Read Mr. Kanaly's
statement: "For five or six years I
was troubled with cough and expectora-
tion. I also had a high fever. My case
was declared Consumption by my physi-
cian. I was given Cod Liver Oil, Creas-
ote and other medicines, all without
benefit.
At Christmas time, 1906, I was not
expected to live. Calling another physi-
cian, he advised the use of Eckman's
Alternative, which I took with excellent
results and was entirely cured.
During the past year I have gained
15 lbs. I go out in all weathers and
have had no cough or cold whatever.
I give these facts to encourage others
to use Eckman's Alternative."
(Signed Affidavit) James W. Kanaly,

Affections. Ask for booklet of cured cases

writing an analysis of their views as
to the definite application of the law.
The officials of the telegraph and
telephone companies conceded that
the law is applicable to them; that
they prohibited the granting of
franks and they are not permitted to
give rebates or show discrimination
in the transaction of business, but a
majority of the companies maintained
that the provision of the law requir-
ing carriers to file with the commis-
sion tariffs of charges did not apply
to the telegraph and telephone com-
panies. All expressed willingness to
file such tariffs if demanded by the
commission.

In substance, these were the views
expressed by Rush Taggart counsel
for the Western Union and subsidiary
companies; by Hunt Chipley, of the
American Telephone and Telegraph
company, and R. H. Overbaugh, of
the Postal Telegraph company.

M. Koenigsburg, representing a
news association, urged the commis-
sion to give the law the broadest in-
terpretation in application to the tele-
graph and telephone companies. His
interest, he said, was simply that of
a large user of telephone and tele-
graph facilities. He urged that the
companies be required to file, not
only rates, but also important con-
tracts.

CAH IN 1911.

President Gosnell Will Call League
Meeting in Short
Time.

Plans for the 1911 baseball sea-
son of the Kitty league will absorb
the interest of the officials in a few
weeks. President C. C. Gosnell, of
Vincennes, has been on a long trip,
and yesterday a letter was received,
announcing that all of the Kitty
league players have been reserved by
the national commission. President
Gosnell indicated that a meeting
would be held soon for the purpose
of formulating the plans for 1911
and getting ready to open the
schedule.

Mr. H. B. Sowell, one of the local
directors, will have a conference with
W. C. Grayson, owner of the Louis-
ville club, in a short time in regard
to the purchase of the Paducah fran-
chise. The fans are tickled over the
prospects of Louisville taking over
the Paducah club as a farm, and ex-
pect to see a pennant winning team
in Paducah next season.

Daily Thought.
From friend to friend the choice is
That ever love can give
Is that which comes the heart to lift
Or helps the soul to live.
—Mary Mapes Dodge.

We judge from the census that in the "land of the Dakotas" the wigwags have been kept moderately full of papooses the last ten years.

Considering the average of them, the loss of one congressman is not the most disastrous consequence to Kentucky of her small gain in population.

The "show me" spirit is so prevalent in Missouri that they have contested every congressional election and will recount the whole state. Which indicates that the habit originated from the Missourians' natural distrust of one another.

Numerous patents, covering every feature of a practicable aeroplane, an extensive factory for their manufacture, and control of the Aero Club of America, clearly prove that, though the Wright brothers conquered the air, they did not build their castles in their new domain.

ENGLISH POLITICS.
Divided party strength in England gives rise to much confusion on this side, where the third party is a negligible quantity. The Liberals, to which party the ministry belongs, controlled the last parliament through a coalition with the Irish Nationalists and the Laborites. The Conservatives, who outnumber the Liberals, but not the combined strength of the ministry, compose the opposition, and include all known as Unionists, who are fighting the Irish Home Rule idea.

The Conservatives control the house of lords, being the aristocratic party, carrying with it the great strength of the established church, and its bishopric represented in the house of lords. The Liberals poll the great strength of the Protestant non-conformist churches in England—for religious differences still are strongly marked over there—and to the protestants of the Liberal party are united in this contest the Catholics of Ireland, who compose the Irish Nationalist party.

The coalition, which seems to hold for another parliament is a drag to the Liberal party. The ministry cannot go further in carrying out a Liberal program than its allies permit, nor can it expect their support of Liberal policies, in which they are not directly interested as party measures, until it has "delivered the goods" to the Nationalists and Laborites. The Liberal ministry must be embarrassed by these demands; for parties, which represent classes and single interests are necessarily deaf to the general welfare of the country and dominated by their own radicals and sometime the Liberal ministry will find it impossible to give its allies what they demand, or acquiescing, will offend the country and receive the rebuke of an overwhelming Conservative majority.

Bot for the present the coalition is welded by circumstances, the interests of the people generally in many instances conforming to the demands of the radical parties. Questions of opening the great game preserves of the nobility, embracing a tenth of England, for agricultural purposes; labor pensions in an industrial nation; absentee landlordism in Ireland; stricter liquor laws, Conservative members of the house of lords owning shares in breweries and distilleries, obviously for the purpose of controlling their votes; revision of taxes, which are burdensome on the commons, who own little, and light on the nobility, who own most of the land; the establishment of church, as opposed to non-conformist churches—all these issues are to the front in England and the Conservative party is tied up by tradition and selfish interests to a reactionary policy.

The ministry is demanding that the king create enough new peers to give the Liberals a majority in the house of lords; but it is doubtful whether the king will do that until an overwhelming majority of the country compels him to acquiesce as a measure of protection to the throne itself.

The coalition has practically won

STATE PRESS AND THE CENSUS.

Kentucky Doubtful.

However that may result, it is evident that a state which shows marked gains in those districts which are traditionally Republican, while the Gibraltar of its Democracy turns up with significant losses, is losing some what of its political complexion. The mountain counties are leading the state in the thirst for education and in the race for betterment. They voted in favor of good roads, while the Bluegrass, and Pennyrile and the Purchase united to kill the proposition, moved thereto, in no small measure, because of a jealous disinclination to aid their brothers. Their resources are of unrealized potentiality and their development is in the pioneer stage. Much food for thought may be found in the census; it is not wholly a document to weep over.—Louisville Times.

The Purchase Looks Good.

The First district embraces thirteen counties, eight of which lie west of the Tennessee river and constitute what is known as Jackson's Purchase. The Purchase makes a fair showing. Only four counties in the district lost in population and three of them are east of Tennessee river. Caldwell lost 447; Crittenden lost 1,805, and Livingston 727. Carlisle, the only Purchase county showing a decline, lost 1,057. Crittenden, it may be added, is the center of the fluepot industry. It was also prolific of night rider troubles. Lyon made a gain of only 104, despite the fact that one of the state prisons is located at Eddyville, its county seat. Hickman appears to be standing pat, it recording a bare gain of five. Graves is one of the biggest counties in the state and contains the city of Mayfield, but its gain is only 335. Fulton is one of the smallest, but records an increase of 2,568. It has the towns of Fulton and Hickman, both "sizable" and prosperous. Trigg county's gain of 446 is not what it should have been. McCracken, having the city of Paducah within its boundaries, naturally makes a good increase, the exact figures being 6,331. Calloway gained 2,234; Marshall 2,079, and Ballard 1,927. All the Purchase counties are mainly agricultural counties and their showing as a whole is favorable.—Courier-Journal.

Owensboro's Plight.

Sifting it all down, it would appear our mineral counties have enjoyed a satisfactory growth, while

its second victory on the same issues, and it is significant that the archbishop of the established church instructed the clergy in the house of lords to refrain from voting on the land and other questions at the last sitting. Yet a few bishops did vote and took the Liberal end of it.

Another interesting bit of information about English politics, that would create a scandal over here, is the support of members of parliament by their political parties. They do not draw salaries like congressmen; but the labor unions, for instance, elect men on the Laborite party and pay them salaries to represent them and vote for their measures in the house of commons. Other interests likewise subsidize parliament men, and little is thought of it, that being the custom. Over here when a lawyer in a state legislature or congress, immediately upon his election is retained by corporate interests in addition to their regular counsel and receives a handsome fee for his services, afterwards voting for measures they desire or against measures contrary to their welfare, he is regarded as a crook. Thus do customs make morals.

PALMER HOUSE—O. E. Robinson, Jr., St. Louis; J. W. C. Daly, Pittsburgh; J. J. Alexander, Butte,

many of our agricultural counties have lost much of their population because of high priced lands and farmers drifting to cheaper lands in the west. The failure of our cities to grow faster can only be explained, we think, by present taxation laws which began with the adoption of the present state constitution in 1891. A \$2 city tax rate, together with \$1 more for county and state purposes, which we have here in Owensboro, is certainly not conducive to the investment of capital in the open. Will we now wake up? That remains to be seen.—Owensboro Messenger.

You Left the Town That's Doing It, Ed.

But we sincerely trust that the evil days are past, and that the era of prosperity is just about to smile upon us. Despite what carping critics and jaundiced papers, and incompetent officials and self-seeking politicians may say, we have the finest state and the finest people that the good Lord ever made, and when we drop over the past the merciful curtain of forgetfulness and wash the bad taste out of our mouths with a glass of water caught up from the flow of the sparkling streams that gush from our mountain sides, we will press forward in the work of building up the material and moral worth of the grand old commonwealth.—Bowling Green Messenger.

Game to the End.

Hopkinsville's increase is at least 30 per cent, since the twelfth census, but in no way does the best town on the map look like 30 cents.—New Era.

The Reason Why.

Much is being said about Kentucky's population, especially by Kentuckians and Kentucky newspapers. Various excuses have been offered for the poor showing made in the past 10 years. Night riding, high taxes, local option, booze and various other causes have been assigned, but the inquirer is not inclined to give any of them serious credit. Kentucky is chiefly an agricultural state, and population does not make rapid increase in those sections dependent almost wholly on agriculture. County population is increased more rapidly by the development of its natural resources, therefore those counties which have been most rapidly developing their natural resources have made the biggest gains in population.—Owensboro Inquirer.

SLATE NOMINEES ARE ALL ELECTED

NO CRACK IN IT AT JOINT SESSION.

Albert Sencer and J. F. Wright Receive Minority Votes for Offices.

OBSTRUCTION OF BROADWAY.

Without a slip the Democratic slate was put through the general council last night at a joint session, and the nominees were declared elected. No attempt was made to break the slate as the Republican side of the house was handicapped by the absence of Councilman C. C. Duval.

Besides the election of the regular slate Dr. P. H. Stewart and Dr. R. E. Hearne were elected members of the Riverside hospital board, succeeding Dr. Horace Rivers and Dr. S. B. Pulliam, who retired. Dr. J. T. Reddick, Dr. B. L. Bradley, Mr. Harry G. Johnston and Mr. Fred Speck were elected members of the city board of health, succeeding Dr. C. H. Brothers, Dr. C. E. Kidd, L. D. Sanders and James P. Sleeth.

All the Democratic caucus nominees were declared elected unanimously except in the races for marketmaster and sanitary inspector. As an expression of sympathy for Albert Sencer, on whom the Democrats used the knife so cruelly, the Republicans placed his name in nomination. Only one Democrat left the caucus nominee and that was Councilman J. K. P. McCarthy, who joined the six Republicans in giving Sencer seven votes, but Burnett received eleven votes and he was declared elected.

J. L. Gaither, who received the recommendation of the board of health for re-election received the solid support of both parties, but when Robert Green was nominated for sanitary inspector joy was caused in the heart of Councilman Pat Lally for a few minutes when the Republicans placed the name of J. F. Wright, the present city weigher, in nomination. Green received 12 votes, and Wright 6. Councilman Lally was too well trained to follow the independent example of Councilman McCarthy, and he stuck to the slate.

Alderman Joe Potter arose for a discussion of the request of the First National bank building for permission to let the foundations for the electric lights remain. "Uncle Joe" confused the issue by demanding that obstructions be removed from Broadway. No action could be taken.

Alderman Farley arose and moved that a vote of thanks be extended the presiding chairman for his impartiality in ruling over the events of the evening. Amid laughter, however, the meeting adjourned.

The officers, who will assume charge of their offices January 1, are:

Dr. H. P. Linn, city physician.
Wood Robertson, city weigher.
Robert L. Hicks (re-elected) license inspector.
John Barnett, market master.
John L. Gaither (re-elected), and George Green, sanitary inspectors.

W. H. Force (re-elected) light plant inspector.

A. Franke (re-elected), sewer inspector.

F. L. Brown (re-elected), wharfmaster.

CORN IS KING

(Continued from Page One.)

ceeded the production of the record year, 1909, and its 967,150,000 pounds are 26 per cent, above the average production of the five preceding years. Its value will be about \$95,000,000, or about the same as that of the crop of 1909, and fully \$20,000,000 more than any tobacco crop antedating that year.

Barley has hardly maintained the average production of the preceding five years, the crop of this year being 158,138,000 bushels, but its value, \$97,000,000, is 16 per cent, above the five-year average.

Flaxseed production is far below that of recent years on account of a severe drought, the preliminary estimate being 15,950,000 bushels, but the price of flaxseed soared to \$2.29 by Nov. 1, so that the value of the entire crop is about \$3,600,000, an amount which was exceeded only in 1909.

Rye is one of the steady crops, both in quantity and value; the production of 32,088,000 bushels, this year being worth at the farm about \$23,000,000.

Rice production grows. Rice production in 1910 remained substantially at the figure of 1909, or a little over 1,000,000,000 pounds of rough rice. No year previous to 1909 produced as large a crop; it exceeds the average of the previous five years by 25 per cent. The price of rice, however, has declined so that the crop of this year is worth hardly \$16,000,000, or 2 per cent, below the five-year average.

The hop crop is regarded as 12 per cent, below the average of the previous five years and the smallest crop in a dozen years or more; but the farm price has improved over the average of the previous five years, so that the total value of the crop is 3 per cent, above that average.

In no previous year has the production of the cereal crops equaled the grand total of \$5,140,896,000 bushels of the cereals of 1910. This is 12 per cent, above the five-year average. In value, however, the cereals of this year fall below that of 1908 and 1909, principally on account of the decline in the farm price of corn. This year's value is \$2,710,000,000, or about \$230,000,000 below the total for 1909 and \$50,000,000 below that of 1908; however, it is 11 per cent, above the five year average.

CROPS IN STATE

REPORT ISSUED BY AGRICULTURAL DEPARTMENT.

Last One of the Year—Some Corn Rotting—Weather on the Whole Favorable.

Kentucky crops are in fair condition, according to the report of the state department of agriculture for November. The report will be the last one issued this year. It shows that there is some rotting of corn, but on the whole the weather was favorable to the corn harvest. The report says:

"The weather during the month of November was cold and dry. There have been a number of reports of dry weather, causing the wheat and rye not to germinate well. There was quite a good deal of late seeding. There is little acreage of rye sown in the state and there seems to be quite a good deal of rotten corn, especially in the western part of the state.

"Many farmers say that this has been the best fall for gathering corn in years, the dry, cool weather being ideal for it. A number of counties report the need of rain for fall pasture and wheat and rye.

"Some splendid yields of corn have been reported, from sixty to eighty bushels per acre, but taking the whole state the yield is twenty-seven bushels per acre. In some sections of the state the crop was short.

"There is not a very large acreage of alfalfa grown in the state. Some counties report an increased acreage."

THE SPECIAL OCEAN MAIL SERVICE IS INAUGURATED

The Western Union Telegraph company announce today another innovation in telegraph service called "The Special Ocean Mail Service."
Designed to save time in foreign correspondence. A letter from San Francisco to London requires as much time crossing the continent as it does crossing the ocean. A New York merchant writing to Yokohama must post his letter practically a week before the mail steamer sails from San Francisco or Vancouver.
The Western Union has arranged for the use of its night letter and other telegraphic service in connection with out-going ocean mails so that this week of trans-continental time may be saved. Its New York office will receive telegrams from any part of the country destined to European addresses and will forward them in a sealed specially addressed envelope by the first out-going Atlantic steamship mail. The same plan will be followed in San Francisco, Seattle and Vancouver for trans-Pacific mails.

This will enable correspondence to be dispatched from any part of the United States for an ocean mail within a few hours of sailing time. The only charge in addition to the usual telegraph tolls to the ocean mail will be five cents for postage. Telegrams should bear the full mail address and the foreign correspondent for whom they are intended and marked "Care Ocean Mail, New York," or San Francisco, Seattle or Vancouver, as the case may be.
No charge will be made for the address.
Yours truly,

IN SOCIAL CIRCLES

Matinee Musical Club.
The Matinee Musical club had an especially delightful meeting Wednesday afternoon at the Woman's club.

A business session was held at 3 o'clock. It was decided to have the next meeting an open Christmas session and each member will have the privilege of inviting two guests. The meeting will be under the leadership of Mr. Emmett Bagby and Mrs. Mayme Dryfuss Greunbaum.

The program was a pleasing one and featured American Folk Songs in an attractive way. Mr. Emmett Bagby sang some plantation melodies and preceded each with an interesting story of the song and sketch of the writer. The numbers included the following:

1. "The Night Hath a Thousand Eyes" (Rogers), chorus for ladies' voices—Misses Mabel Shelton, Anna Hill, Letha Puryear, Mesdames Lela Lewis, John Brooks, Clarence Krug, James Welle, George B. Hart, Will Gray.

2. Violin Solo, Familiar Melodies—Mrs. W. C. Clark.

3. Bamboula (Gottschalk)—Miss Anna Hill.

4. Plantation Melodies:

(a) Ring, My Banger, Ring.—(Burleigh).

(b) Let Miss Lady Pass.—(Rogers).

(c) The Old Boatman.—(Mrs. Freer).

(d) Mammy's Lullaby.—(Sydney Momer).

(e) You'll Gilt Dar in de Mornin'—(Burleigh).

Mr. Emmet S. Bagby.

5. The Banjo (Gottschalk)—Mrs. Vincent Salvo.

Mrs. Clarence Krug and Miss Angie Thomas were the leaders for the afternoon.

Mr. Harry Gilbert in Recital Here.

Mr. Harry M. Gilbert, of New York, who is at present on tour as accompanist for Mr. David Biepham, the eminent baritone, will arrive Saturday evening to spend several days with his mother, Mrs. Azella Gilbert, 521 Madison street. Mr. Biepham and Mr. Gilbert give their Louisville recital on Friday evening, and owing to the fact that Mr. Biepham will appear as soloist in orchestral programs in St. Louis and Indianapolis, during the following four days, Mr. Gilbert will avail himself of the opportunity to spend the time in his home town, rejoining Mr. Biepham in Chicago the following Wednesday. Mr. Gilbert's work as pianist with Mr. Biepham has received the keen praise of music critics in all the musical centers in which they have appeared, and in many instances his notices from the press have equaled those of Mr. Biepham.

Mr. Gilbert will give an organ recital next Tuesday evening, at the First Christian church, for the benefit of the Church Furnishing society, of which his mother is a member. Mr. Gilbert's recitals are always events to Paducah music lovers and a large audience is already assured. Prominent vocal talent will assist, and the public at large is cordially invited to attend. No admission will be charged.

Mr. Gilbert is now organist and musical director of the Central Presbyterian church, New York City, one of the most prominent and responsible musical positions in that city.

Informal Bridge Afternoon.
Mrs. William Bradshaw, 1520 Broadway, entertained a limited number of her friends informally at bridge on Wednesday afternoon. The three tables of guests included 10 of the hostess' intimate friends. Mrs. J. D. Wilcox made the highest score and the prize was a beautiful hand painted nut bowl. After the games a delicious two-course luncheon was enjoyed. The guests were: Mesdames Luke Russell, Clarence Sherrell, El G. Terrell, George B. Exall, I. D. Wilcox, Hal Corbett, Eli G. Boone, H. G. Reynolds, William Bradshaw, Jr., Charles Richardson.

Marries in Chicago.
Mrs. James E. English received a telegram today announcing the marriage of her sister Mrs. Lillie Branaugh, to Mr. Guy F. Sees, of Grand Rapids, Mich. The marriage took place Wednesday at the home of the bride in Chicago and was a quiet ceremony. The couple have gone on a bridal trip East and will visit in Paducah as they return. They will make their home in Chicago.

Mrs. Sees formerly lived in Paducah and belongs to a prominent Kentucky family. She was Miss Lillie Thornberry and is a woman of brilliant mentality. Mr. Sees is a prominent manufacturer of Grand Rapids.

Church Law
TRIENNIAL SYNOD AT ST. PATRICK'S CATHEDRAL.

600 Priests Attended—Power to Remove Pastor Taken From the Bishops and Archbishops.

New York, Dec. 8.—Changes in the ecclesiastical law of the Roman Catholic church, as promulgated by Pope Pius X, were announced to the clergy of the archdiocese of New York at the triennial synod, held at St. Patrick's cathedral. More than 600 priests attended.

The most important decree is the "maxima cura" decided upon by the consistorial congregation at Rome, which takes from the bishop and archbishop of a diocese or archdiocese, respectively, the power to remove a pastor. Hereafter the power of removal will rest with "De Amotione Parochi," which consists of six priests besides the archbishops.

Nine reasons for the removal of a priest have been decided upon by the consistorial congregation at Rome. As announced, they are:

Perpetual insanity; such unfitness or ignorance as rendered him incapable of performing his duties; permanent physical or mental infirmities; the animosity of the people, when it renders his work useless and is likely to continue; loss of reputation; a hidden crime; bad administration; gross neglect, continued after warnings, and disobedience to the bishop, if continued after one or two warnings.

Change in Canon Law.
Another change announced in the canon laws of the church is that pertaining to the age at which children may receive first holy communion. Heretofore it has been the custom among priests in the English speaking countries not to administer the sacrament unless a child is between the ages of 10 and 12.

The decree issued makes it imperative for priests the world over to prepare children so they may receive the first sacrament upon attaining the age of reason, which is 7, and in some cases 6.

The Cornfield Code.
A cornfield judge in Oklahoma was hearing a trial for stealing. The defendant testified. Then the prosecuting attorney moved to strike out his testimony as irrelevant, immaterial, and half a dozen other undesirable things.

"What else has the defendant offered in defense?" asked the judge.
"Nothing, Your Honor," the prosecuting attorney replied.

"Well," ruled the judge, "I won't strike it out. Do you suppose I want to take away the only defense he has?"—Philadelphia Saturday Evening Post.

STATE VOTING

INCOME TAX AMENDMENT PROBABLY WILL CARRY.

Encouraging News Received by Senator Brown That States to Reconsider.

Washington, Dec. 8.—That four out of the five states whose legislatures have pronounced against the income tax amendment to the constitution as provided by the Payne-Aldrich tariff law will reconsider their decision and align themselves with the states supporting the provision, is the opinion of its author, Senator Norris Brown, of Nebraska.

Mr. Brown is very confident also that the amendment will be ratified by the legislatures of more than the requisite three-fourths of the states during the present winter. Already

eight states—Alabama, South Carolina, Illinois, Maryland, Kentucky, Mississippi, Oklahoma and Georgia—have passed ratification resolutions.

New York, Rhode Island, Massachusetts, Virginia and Louisiana have refused to indorse the proposed amendment, but Mr. Brown declares there is strong reason to believe the legislatures-elect of those states, with probably one exception, will reconsider and ratify.

The week after election Senator Brown wrote to all governors urging their co-operation in the campaign for the amendment and inclosing a copy of the ratification resolution. He has had replies from a very large majority of them, who favor the amendment and will in their messages recommend the ratification. Among others, is a strong letter from Governor-elect Foss, of Massachusetts.

Missouri May Re-count.
Jefferson City, Mo., Dec. 8.—Judge Selden P. Spencer and Lon O. Hocker, employed by the Republican state committee to represent the four Republican candidates against whom notices of contest proceedings were served today, announced in Jefferson City tonight that the charges that the Democratic candidates received 10,000 more votes in the state than they were credited with, and the Republicans 15,000 less, will necessitate a recount of the entire state.

History of Red Cross Seals.

Red Cross Christmas Seals date back in their origin to "charity stamps," first used for the soldiers' relief funds in Boston in 1862, during the Civil war. After the war, this method of raising money was discontinued in this country for a generation, although it found vogue in Portugal, Switzerland, Australia, France, Spain, Denmark, Norway, Russia, Sweden and other European countries. There are now several hundred different types of charity stamps used in all parts of the world.

Stamps or seals were first used to get money for the anti-tuberculosis crusade in Norway and Sweden in 1904. After being used in these countries for three years, as a direct

result of the interest of Jacob Rills in this movement, the Delaware Anti-Tuberculosis association, headed by Miss Emily P. Bissell, and the Red Cross Society of Delaware combined in issuing a Tuberculosis Stamp. So successful was this campaign that nearly \$5,000 was realized, and the next year, in 1908, the American Red Cross was induced to issue a National Red Cross Tuberculosis Stamp. From this sale, \$135,000 was realized that amount being almost doubled in 1909. This year, for the first time, the sale is organized on a comprehensive basis, taking in all parts of the United States. A million for tuberculosis work is confidently expected.

AN EASY AND HARMLESS WAY TO DARKEN THE HAIR.

Who does not know of the value of hair, soft, glossy and in good condition? It is a matter of fact, sulphur is a natural element of hair, and a deficiency of it in the hair is held by many scalp specialists to be connected with loss of color and vitality of the hair. Unquestionably, there is no better remedy for hair and scalp troubles, especially premature grayness, than sage and sulphur, if properly prepared. The Wyeth Chemical Company, 74 Cortlandt St., New York City, put up an ideal preparation of this kind, called Wyeth's Sage and Sulphur. It is sold by all leading druggists for 50c and \$1.00 a bottle, or is sent direct by the manufacturers upon receipt of price.

ENGLAND CANDY

EATING LAND

WOMEN INDULGE MORE IN "SWEETS."

Habits of Americans Being Acquired by the Britishers Great Ban of Good Looks.

DEADEN THE SENSIBILITY

Temptation is conspicuous in the windows of the bonbon shop, and it is but too easy to succumb. Some of us are munching almost all day long. Not girls only, but their mothers as well. Dentists could tell tales about them. Doctors, too, would have much to say. "How many pounds do you eat in a week?" asked one of these of a fair patient, "About a pound a day," was the answer, and then, as if in excuse, "but mother eats nearly as many as I do." It is fatally easy to get a bad example. Seven pounds of sweets a week bring their own penalties upon the consumer, and especially if but little exercise be taken. The confirmed sweet-eater is not fond of walking. She likes to sit in a comfortable chair and read a novel while she discusses the contents of her carton. Through all the joys and sorrows of hero and heroine she nibbles contentedly, scarcely pausing when Angelina marries the bald-headed millionaire and Edwin holds a pistol to his own right ear. Too much sweet-eating is deadening to the sensibility. It ruins the digestive organs, and when they are disordered it is impossible to be genuinely sympathetic with even real woes.

A kind of apathy and general indifference to everything is the result of the clogging of the internal machinery. Temper suffers. The peevish, petulant, sharp-tongued girl is often so because she eats so many sweets. She feels heavy, languid, listless. Everything is a trouble to her. She thinks of kind, good-natured things to do, but she does not do them. She is much to inert. Then comes the pangs of self-reproach, added to the trials of indigestion; result, an explosion of ill-temper, discomfort, and consequent sorrow.

It is a universal fashion now for young men to give boxes of sweets to girls they admire, to daughters of kindly hosts and hostesses from whom they have received hospitality, and to the girls they are going to marry, also to the said girls after they have married. A very pleasant custom, too, but let each recipient

see to it that her consumption of these nice things be far below the supply. Otherwise she will lose much of that bright gaiety that is one of the most attractive attributes of girlhood, will sink into a sort of denden dullness. Other—very often—she does not know what causes this. "I feel horrid," she says, "but can't think why." Sweets are very well in moderation. More, they are very good, particularly for young people, who have a natural craving for sugar. But in moderation only.

American Girls and Candy.
An American doctor has said that the reason the girls of his country lose their pretty looks so soon is because of their inveterate devotion to candy, otherwise caramels, toffee, "kisses," and chocolate cream. Their complexions suffer, then their general health, through their over-worked digestive organs. They acquire a dried-up, sallow look, and a dull, discontented expression, all three of which are foes to beauty. An American girl's allowance of sweets is much larger than that of the average English girl. The doctor in question suggested an extraordinary remedy for ailments caused by the consumption of unlimited candies. He recommends pork, and plenty of it. If she will eat abundantly of it, she will keep her youthful freshness. What do English doctors say to this? One of them declares that "sugar foods swallowed in a state unfitted for assimilation clog, poison and paralyze the whole digestive tract."

This is a thing no nice girl would like to do. But worse remains behind. "There ensues a bad state of the blood in quantity or quality, a clogging of the tissues, a perversion of functions and ultimately diseases of the greater organs."

"But sweets may be quite fit for assimilation," agrees the inveterate sweet-eater. Quite so, with three "ifs" thrown in—if eaten in moderation, if made of pure and wholesome materials, and if abundant exercise be taken. With sweets at 2s 6d to 4s per pound one may feel almost safe from the adulteration that is but too probable at a very low price. What about the "mixtures" at 4d per pound? They look very pretty. The colors are soft and tempting and the texture is just right, delectably scrummy, and yet not hard. But what are they made of? Dirty sugar is first on the list. Inferior butter comes next.

For flavorings there are dangerous compounds, acetate and nitrate of ethyl, (pineapple), valerianate of amyl, (apple), acetate of methyl, (jargonelle pear), distilled from the acids with alcohol and sulphuric acid; and bitramate of potash is used as a pear flavoring. Inferior jujubes are made of ordinary glue size. Ask the carpenter what size is made of. Licorice is sometimes colored with lamp black, thickened with chalk and starch and stiffened with patent size. These are just a few of the deleterious ingredients to be found in every cheap sweet. Fortunately these are usually sold in neighborhoods where the children and young people cannot afford to buy enough to do them any considerable harm.

"We are rapidly becoming a sweet-eating nation," says a medical journal. Things seem tending that way. Let food inspectors see to it that sweets are pure, and let the girls and women of leisure make their sweets at home. It is fascinating work, not laborious, yet giving that occupation for the lack of which so many women go to the doctors with imaginary neurotic ailments. And even sweet-making can give the home worker opportunities for helping others. A girl who had made some money by selling her caramels bought with it a good wooden leg for a poor mill girl who had lost a limb in an accident. "I do not feel so proud," says the donor, with a happy laugh, "when I think that it is my caramel leg that is stamping about that mill now!"

Is not this the sort of thing that makes life worth living? Compare this worker and her good deed with the girl who, by her own admission, goes daily into a certain shop and eats liberally from all the little dishes in which samples are set out. "Don't you buy any?" asked some one. "Oh, yes! I buy some, but not nearly so many as I eat!" If a poor-

er clad woman did this she would be had up for theft.—Mrs. Humphrey, in the London Express.

Electric Poles.

The forests of Michigan have been drawn upon for many years for the supply of electric poles, but the end is now in sight and the supply will soon be exhausted. Unless cement or metal comes to the rescue, it will

be necessary to make use of the western cedar, which, however, has many drawbacks, particularly that it is subject to the attack of insects, which quickly ends its career.

Friends discouraged us in our new venture, simply because we were not on a retail street, that we had no bar, no free lunches, no benches or chairs to lounge on, and no show windows to display our goods. READ THE "CAUSE AND EFFECT" below:

CAUSE

We refuted the idea, claiming that the public were willing to walk a half block out of their way, were willing to dispense with the aforesaid attractions, if they can be convinced that they can buy almost two bottles of whiskey (quality considered) for the price they are paying for one, in other words, if we save them 33 1-3 to 50 per cent., and on some goods even more.

EFFECT

We have proved the correctness of our claim, we have built up a business beyond our most sanguine expectations, not alone in Paducah but in all the neighboring counties as well as in the near by Illinois towns. COLORED PEOPLE LEAVE KENTUCKY

STATE SUPERINTENDENT EXPLAINS DECREASE.

Says School Census Shows They Are Moving Away to Cities Outside Kentucky.

RURAL SECTIONS ARE LOSING.

Frankfort, Ky., Dec. 8.—Decrease in the negro population of Kentucky, as shown by the school census reports, accounts for the poor showing made by this state in the census for 1910, in the opinion of Professor Elsworth Regenstein, state superintendent of public instruction. He gives figures to show that there has been a decided falling off in the number of negroes in Kentucky during the last ten years, and says he believes this explains the small gain

made by the state. The trend of the negroes toward the cities explains, he believes, the falling off of many counties which show a decrease in population.

The figures given by Professor Regenstein are interesting, showing that, while white school children have increased, the negroes have grown less. The statement that the negroes are going to the cities will not account for the falling off in the school census, as the figures are for the whole state, including the cities. The following figures offer a basis for comparison:

Comparative Table.

School census for 1900—White, 628,925; colored, 101,777.
School census for 1910—White, 657,928; colored, 88,117.

This shows that while there are 29,903 more white children now than there were in 1900 there are 13,660 less negroes. The whites have gained at a good rate, while the negroes have fallen off at about the same rate that the whites gained. It cannot be said that the figures are inaccurate, declared Mr. Regenstein, as the census is taken no more carefully now than it was ten years ago, and the figures are for the total number of children of school age, and not the total enrollment.

There has also been a trend of the

negro toward cities, he says, as is shown by the figures for rural schools. In 1900 there were 76,582 negro school children in the rural schools—that is, outside of cities. In 1910 there were only 59,900 negroes of school age in the rural districts outside of the cities. This shows that the rural schools lost 16,682 negroes in the ten years, as compared with a loss for the whole state of 13,660.

Negroes Leave State.
"I think the decrease in the number of negroes is the real explanation for the poor showing made by this state," said Professor Regenstein. "I think that the census for 1910 was loosely taken and that the figures are not accurate, but there has undoubtedly been a big loss in the number of negroes. The negroes have been moving out of Kentucky, drawn to the large cities of the north and to Indiana, Illinois and Ohio."

TAKE CARE!

Remember that when your kidneys are affected, your life is in danger. M. Mayer, Rochester, N. Y., says: "My trouble started with a sharp shooting pain over my back which grew worse daily. I felt sluggish and tired, my kidney action was irregular and infrequent. I started using Foley Kidney Pills. Each dose seemed to put new life and strength into me, and now I am completely cured and feel better and stronger than for years. Gilbert's drug store."

Mrs. Emma Amberg.

Hickman, Ky., Dec. 8.—Mrs. Emma Amberg died last night after a two weeks' illness. She was the wife of H. C. Amberg, retired merchant of this city, and a member of one of the oldest and best families in the county. Mrs. Amberg was about 55 years old. This makes the third

year, they having lost two sons. Interment was at the city cemetery this afternoon, with funeral services at the home. Mrs. Amberg is survived by her husband, H. C. Amberg, and one son, Joe L. Amberg, a merchant of this city.

For High School Library.

A part of the receipts of the oratorical contest held last year supplemented with a donation from the school board, will be used to replenish the High school library. Two new book cases have been constructed by Fred Hoyer, and the new books will be purchased.
